## DETAILED ACTION

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 11-24 are rejected under 35 U.S.C. 112, first paragraph, as based on a disclosure which is not enabling. Specific chemicals and steps required for preparation of a specific catalyst composition critical or essential to the practice of the invention, but not included in the claim(s) is not enabled by the disclosure. See *In re Mayhew*, 527 F.2d 1229, 188 USPQ 356 (CCPA 1976). In view of the specification, one of ordinary skill in the art is not able to prepare the catalyst of the instant claims based on the disclosure of the specification due to the lack of details regarding, e.g., the composition of the electrolytic solution, the composition of the support with a chiral or "prochiral" crystal face and a process for making it, how to support catalyst complex to provide a catalyst composition. Without the disclosure of those detail, one can not prepare the catalyst of the instant claims.
